

MAYSVILLE, KY., FRIDAY, FEBRUARY 16, 1912.

ONE COPY—ONE CENT.

"LAY OF THE LOST LIVER."  
Beneath the heaving diaphragm  
A voiceless liver lies:  
She cannot tell of all her woes—  
She simply does and dies.  
Her owner to the doctor goes  
To see "was her den los los?"  
The doc looks wise, then gravely says  
"My friend, you have berceles."  
All liverless they buried him—  
For him no liver worth:  
His friends stood by to see him off,  
Each with an awful throb.

The river at this point is free from running ice and the ferryboat Laurence is making her usual trips.

**Announcement Extraordinary**  
Our Manhattan and Edipies Shirts for spring have arrived. Beautiful styles and patterns. Call and see them. D. HECHINGER & CO.

### Claims He Shot Goebel

HELENA, ARK., February 15th.—Fatally wounded in a duel with a hard-ender here today, James Gilbert, who came from Kentucky, declared he was the man who fired the shot that killed Senator Goebel at Frankfort in January, 1900.

### ONE SHOVELFUL OF THE BEST COAL

Is worth two of the other kind. You can prove it by trying some of our coal. It will cost nothing extra to make the trial. It will really cost you less, for you'll find your bin holding out longer, while you have as much heat or more than you had before. How many tons shall we send?

### MAYSVILLE COAL CO.

PHONE 142.

Cartmell extracts teeth without pain.

The Congo River Tabernacle No. 8 will give a social at the residence of Miss Hannah Taylor on East Fourth street. Everybody is welcome.

**PILES CURED IN 6 TO 14 DAYS**  
Your druggist will refund money if PAZOINTMENT fails to cure any case of itching, blood flowing or protruding Piles in 6 to 14 days. See

### TAKE NO CHANCE

Of Being Disappointed When Wanting

## Fresh Vegetables, Fruits,

Or Good Things to Eat.

**J. C. CABLISH, The Quality Grocer,**  
Can Furnish You.  
COX BUILDING.

Grand Enchore and Reception at Knights of Columbus Hall Monday evening, February 19th. U R invited.

### Good Price

Yesterday the Rhode farm containing 85 acres, near Washington, was sold to Jack Berry at \$130 per acre.

### "Newlyweds" Serenaded

Last evening Mr. and Mrs. John Wells, who recently returned from their bridal trip, were handsomely serenaded at their cozy bungalow in Eastland by Prof. A. Vonia's orchestra. The musicians were carried out to the Wells' home in Col. T. M. Russell's auto. There was a good time all around and the "Newlyweds" gave all a hospitable reception.

### Dance Last Night

A short time ago the young ladies of Mayville gave a Leap Year Ball to their gentlemen friends, paying all the bills and running the function in an enjoyable style. Last night the young men returned the compliment by giving the girls a beautiful dance. Hancock, Hubbard and Phillips furnished the music and the occasion was much enjoyed.

### A MIXUP

**Man Saves Dog's Life, Dog Bites Man, Man Kills Dog**

The Ripley Bee is responsible for the following chain of remarkable happenings which puts one to studying if there is any morals to the story. The Bee says—  
"Wm. Fossecker pulled a car dog out of the ice in the river yesterday to keep him from drowning, when the dog bit him on the hand badly. He then killed the dog."

### GRANT—WHITE

**Pretty Nuptial Event at the Home of Mrs. Mary Martin in Forest Avenue**

The wedding of Miss Alice White and Mr. John D. Grant, both well known residents of the county, was very quietly solemnized last Wednesday evening at 6:30 o'clock at the home of Mrs. Mary Martin, an aunt of the bride, in Forest avenue, Rev. Roger L. Clark of the Christian Church officiating, and only the members of Mrs. Martin's family being present.

The happy couple have been sweethearts for years and will make their home on a farm at Bernard, the White homestead, she being a daughter of the late David White.

### SOME NEW FACES

**Among the Old—Manager Glenn McCann Announces More Players**

In a letter to President Thomas M. Russell of the Mayville League baseball club, received Thursday morning, Manager Glenn McCann announces he has signed two more players, William Collins and Harry C. Thomas, both pitchers with a pedigree. He also says tell the fans that he expects to have Pitcher Beer, First Baseman Carmoncy, Pitcher Grover, Second Baseman Williams and Left Fielder Langenhau of last year's club, back in the game this year. He will have eighteen players present here during April to give a tryout before the wedding out process begins.

### ROBERT TERHUNE

**One of Mason County's Pioneer Citizens Passes Away**

Another of Mason county's worthy pioneer citizens, in the person of the venerable Robert Terhune, passed away this morning at 1:15 o'clock at his home on Tuckahoe at the advanced age of 94 years past.

Deceased was born in this county October 17th, 1817, where he has continuously resided. He has been an invalid for years, and for the past sixteen days failed rapidly. His wife, nee Claybrook, preceded him to the grave in 1888. He was the last of a once numerous family, and was the last charter member of the Germantown Fair Company. He was a devout member of the Christian Church, a man of high standing and integrity.

Funeral from his late home tomorrow afternoon at 2:30 o'clock, with services by Rev. W. W. Hall.

### Special, For Saturday Only

The secret of "very best" cakes lies in our ability to get each ingredient correctly proportioned and the scientific treatment of the dough including the proper temperatures at different stages.

We place on sale Saturday a Special Caramel Cake, regular 20c for 16c.  
Taffy, regular price, 15c per pound, special Saturday 10c. TRAXEL'S.

### Will Probated

The will of F. M. Tolle, deceased, was pronounced in the County Court yesterday. He named his wife, Nancy D. Tolle, as executrix of his will without bond, to whom he leaves all of his estate. The instrument is dated September 10th, 1898, and is witnessed by George W. Sulser and George W. Rudy. In a codicil dated January 27th, 1912, witnessed by A. O. Taylor and J. N. Keboe, he devised to Mary E. Turner the sum of \$500 and the home residence in Forest avenue, his widow to have the use of said residence during her life time. To his niece, Gertrude M. Tolle, he bequeathed \$500 and to his brother, L. D. Tolle, the sum of \$300.

Carpets and Rugs cheap. New York Store.

His legion of friends will be pleased to learn that Mr. Abram P. Chenoweth is gradually recovering from his long sick spell. Yesterday he enjoyed the bright sunshine, reclining in a chair on his portico at his East End home.

### MASS MEETING

**Mrs. Frances Beauchamp, State President W. C. T. U., To Speak Sunday**

A temperance mass meeting will be held next Sunday afternoon at 3 o'clock at the Third Street M. E. Church at which occasion Mrs. Frances Beauchamp, State President of the Woman's Christian Temperance Union of Kentucky, will speak on "Temperance." She is noted as a worker in the temperance field and the meeting at Mayville promises to be attended by an immense crowd. Pastor E. R. Overly will preside and everyone is given a cordial invitation to be present.

## The Square Deal Man's New Year's ANNOUNCEMENT

During the year 1912, in order to show our appreciation of your patronage, to stimulate trade and encourage collections, we are going to duplicate our plan of 1910 and from now on, with every \$1 cash purchase, you will get a ticket entitling you to a chance on six grand prizes to be given away during the year, as follows:

- 1st Prize, Rubber Tire Columbus Buggy, \$140.
- 2d Prize, Set Hand-Made Buggy Harness, \$35.
- 3d Prize, Automatic Shotgun, \$30.
- 4th Prize, "Square Deal" Sewing Machine, \$25.
- 5th Prize, Carving Set, \$10.
- 6th Prize, Set Roger Bros.' Silver Knives and Forks, \$5.

Any one of these prizes is well worth trying to get. Come in and buy and then save your tickets, and we will do the rest. Wishing you all a happy and prosperous new year,

**Mike Brown,**  
The Square Deal Man.

Mrs. Harry Slicer of Nepion was shopping in Mayville Tuesday.

Mrs. J. W. Shockley and D. M. Stamper of Ewing were in Mayville Tuesday.

Miss Minerva Bayless of near Washington was visiting Mayville friends yesterday.

Rev. C. A. Cookwell of Mayfield was the guest of Rev. Roger L. Clark Wednesday.

Mr. M. S. McLean of near Germantown, one of the Public Ledger's good friends was in Mayville yesterday and called at this office. Mr. McLean says the farmers expect to plant an increased acreage of tobacco this season.

### TAFT INDORSED

**Georgia State Republican Convention Names Delegates to Chicago**

ATLANTA, GA., February 14th.—President Taft was given an enthusiastic and unanimous endorsement by the Republican State Convention which met here today and selected delegates at large to the National Convention. The delegates, four in number, were instructed to vote "first, last and all the time" for the re-election of Taft.

## STRINGLESS BEANS

Packed by the FERDELL FOLKS. These beans are green, tender, not a sign of a string. In fact they are simply delicious. You can't buy them as good anywhere.

PRICE ONLY 16c A TIN.

Phone 43.

GEISEL & CONRAD.

## Linen Information That Will Interest You.

About midway between Brussels and Boulogne, and lying partly in Belgium, partly in France, is a strip of territory that produces probably the finest flax in the world. You know our name best—Courtrai—and the flax that's grown there is woven, not only in Belgium, but in every linen-making country, into the best, clearest, finest of linen.

And the Belgians are just as expert in weaving table linens as they are in growing the flax. Splendidly honest, substantial, durable, good-looking linens they are too, and not high-priced.

A special line of these table linens came to us in exclusive designs. We can recommend them unreservedly for their satisfactory qualities.

1852

HUNT'S

1912

Four different grades, thirty patterns in all, from \$1 to \$2½ a yard.

Here are some other linen things you ought not to miss—each a special value at the price:

Fine large Turkish Bath Sheets at 50c each.

Heavy, serviceable Mats in two colors with the word "Bath" in center at 75c.

Bath Towels, full bleached; extra warp and very large size, 25c each.

Cream Napkins, 14 inches, hemmed ready for use at 50c dozen.

Grass-bleached German Breakfast Napkins, 10 inches, at \$1.15 dozen.

Hemstitched Huck Towels, beautiful quality, 25c.

Snow-white Scotch Breakfast Napkins, 20 inches, 21½ doz.

Scotch Napkins, medium size, finer quality, 22 inches, \$1.95 dozen.

Full-bleached Huckaback Towels, hemmed and washed, ready for use, 12½c each.

Huckaback Toweling, 23 inches wide, 19c yard.

Snow-white Table Linen by the yard, 67 inches wide, 50c yard.

Satin-finished German Linen, 72 inches wide, \$1 yard.

Yard-wide White Linen only 25c yard. For waists, dresses, pillow cases and underwear.

## Saturday's Big SPECIAL

**\$1.25**

Sizes, 34 to 44. We should sell the entire lot on Saturday.

**MERZ BROS.**

**Good Stores Give Good Globe Stamps.**

Drygoods, Merc. Wares, Groceries, J. C. Cablish, O. O. Calhoun, Charles Store, Schatzmann.

**GLOBE STAMP CO.**

A. F. CURRAN, Editor and Owner.

102-PUBLIC LEDGER BUILDING MAYSVILLE, KY.

## SUBSCRIPTIONS—BY MAIL.

One Year \$3.00  
Six Months \$1.80  
Three Months \$1.00  
Payable to Collector at end of Month.

ALL SUBSCRIPTIONS CASH IN ADVANCE.

We move that Kentucky's tax on bachelors be fixed at thirty-cents.

As it now appears the Taft opposition has simmered down to one, LINK STEFFENS.

RUFUS RASTUS JOHNSON JACKSON WASHINGTON BROWN is unachurally opposed to the anti-tipping law.

Persons are crossing Lake Erie from Sandusky to Canada on the ice, in autos, the first time such a trip was ever made by such vehicle.

SOME politicians and newspapers have had their reasons for opposing Taft, but the people have had no reason to go back on the President. He is honest and clean. No one would dispute this. He will pass in to history as a strong, capable and conscientious President. The American people want the Government run right. Taft has been doing that and the people ought to stand by Taft.—Des Moines Capital.

From the public the idea is occasionally that cities or communities frequented byerculosis persons present conditions favorable for the infection of the well. While it was difficult to secure conclusive evidence to prove the error of the assumption referred to, yet a study of the question would indicate that casual contact and house infection were of relatively slight importance, and that if the presence of a large number of "open cases" were a factor of great importance in spreading eulosis, there should be some correlation between the death-rate of imported and acquired cases in the various communities. None of the states except Arizona classifies separately the deaths from imported cases and those from locally acquired tuberculosis. It is found that in Denver, which also makes this distinction classifying these deaths, the death-rate from locally acquired tuberculosis, while it fluctuates somewhat, is low and is certainly not increased by the presence of a large number of "open cases" in the community. California also classifies these deaths according to length of residence and while the line cannot be distinctively drawn between imported and locally acquired cases, yet the conclusion as that the death-rate from tuberculosis is no higher in southern California, which receives most of the imported cases, than it is in the central and northern portions of the state. The abundance of sunshine, which quickly destroys the germ, and the possibility of out door life in most of these communities together with the supervision exercised by physicians over this class of patients and the instruction given them as to the spread of infection and adoption of correct hygienic measures, make these communities as safe for the general public as the communities less favored by climate. The Journal of the American Medical Association says that tuberculosis is notoriously a disease dependent on poverty, malnutrition, dust, bad air and bad housing, these conditions in the closely populated industrial centers with less supervision cases really afford much greater opportunity for the spread of this infection than the more open but supervised resort communities.

"Honest and Clean." one would dispute this. He will pass in to history as a strong, capable and conscientious President. The American people want the Government run right. Taft has been doing that and the people ought to stand by Taft.—Des Moines Capital.

The abundance of sunshine, which quickly destroys the germ, and the possibility of out door life in most of these communities together with the supervision exercised by physicians over this class of patients and the instruction given them as to the spread of infection and adoption of correct hygienic measures, make these communities as safe for the general public as the communities less favored by climate. The Journal of the American Medical Association says that tuberculosis is notoriously a disease dependent on poverty, malnutrition, dust, bad air and bad housing, these conditions in the closely populated industrial centers with less supervision cases really afford much greater opportunity for the spread of this infection than the more open but supervised resort communities.

From the public the idea is occasionally that cities or communities frequented byerculosis persons present conditions favorable for the infection of the well. While it was difficult to secure conclusive evidence to prove the error of the assumption referred to, yet a study of the question would indicate that casual contact and house infection were of relatively slight importance, and that if the presence of a large number of "open cases" were a factor of great importance in spreading eulosis, there should be some correlation between the death-rate of imported and acquired cases in the various communities. None of the states except Arizona classifies separately the deaths from imported cases and those from locally acquired tuberculosis. It is found that in Denver, which also makes this distinction classifying these deaths, the death-rate from locally acquired tuberculosis, while it fluctuates somewhat, is low and is certainly not increased by the presence of a large number of "open cases" in the community. California also classifies these deaths according to length of residence and while the line cannot be distinctively drawn between imported and locally acquired cases, yet the conclusion as that the death-rate from tuberculosis is no higher in southern California, which receives most of the imported cases, than it is in the central and northern portions of the state. The abundance of sunshine, which quickly destroys the germ, and the possibility of out door life in most of these communities together with the supervision exercised by physicians over this class of patients and the instruction given them as to the spread of infection and adoption of correct hygienic measures, make these communities as safe for the general public as the communities less favored by climate. We mention no names but after the Government gets through with the Bath tub Trust it might then begin action against the bathroom monopoly. Every family has one.—Detroit Free Press.

The Pueblo (Col.) Opinion says this is how tariff reform is working in practical operation: "The imports on which duty was paid amounted to \$750,000,000. The imports which came in free amounted to \$776,000,000. Can you see wherein the country profited? Not one article that came in free has been reduced in price, but almost every article, especially all articles of food, have increased in price. Free Trade is a fake and ruinous to the nation that adopts it."

All that a pedestrian has to do, anywhere on the public highway, is to exercise reasonable care and prudence, slightly more at other places than at crossings.

But the burden is largely on the driver of the vehicle to take pains to avoid accidents. The pedestrian has the right to use any part of the highway, not recklessly, but with ordinary judgment. It is not his duty, to jump at the horse nor at an automobile horn and surrender the right of way to the vehicle.—Seattle Post-Intelligencer.

There seems to be a lot of figuring and advice by Democratic politicians just now on the best method of redistricting Kentucky advantageously to the Democrats. None of them appear to realize that the best method of doing that is to redistrict the State with a view of absolute fairness instead of to partisan advantage.

With both Democrats and Republicans a district apportionment is always synonymous with a gerrymander. The political game is about the only sport in which the players do not even pretend to fairness.—Courier Journal.

Statisticians who have been at work on this important subject find that during 1911 there were 11,123 new books published in the United States and 10,914 in Great Britain.

Evidently the printers and binders of neither country have any reason to feel depressed.

But the American book publishing record of 1911 shows a decline, as compared with the previous year, while the British record shows an increase.

For a great many years it has been a common saying that there are altogether too many books published. That statement requires some qualification, however, before it can be accepted as true. It all depends upon the kind of books. Undoubtedly there are too many trivial and no-account books offered the public, but there must always be a large amount of chaff along with the good wheat.

If opportunities for publication were limited, in the hope that much of the unworthy literature could in that manner be eliminated, many a good book would never see the light of day.

On that theory it is far better to have too many books published than to few.—Times-Star.

THE question of a military guard for the White House is occasioning much discussion, both among people who think soldiers should be detailed there and among others who oppose that plan. Adherents to the plan for a military guard had to combat the objection of others that this would be undemocratic, but they pointed out that the president of practically every republic in the world is guarded against danger by soldiers. It would not be necessary to have such a large force of soldiers as to lend too much of a military air to the White House.

It was pointed out. Col. John McElroy, a prominent G. A. R. man, proposed that the president's guard be selected from among honorably discharged soldiers. Such a plan, he said, not only would lend proper dignity to the White House, but would tend to provide rewards for men who have served the nation creditably in war.

With the continued growth of the city, it is said, all policemen will have to be recalled from detail work, or the force will have to be increased. Should the military guard be established, they argue, the country would not be put to any additional expense, the presence of the soldiers at the White House would add to the dignity of the place, and the Washington police force would be made more efficient.

THE authorities of the state of Delaware have communicated to the navy department a request that the wooden statue of Tecumseh, Indian chief, which formed the figurehead of the old ship of the line Delaware, be turned over to them, but the officers who have graduated from the naval academy, where the figure of the old brave is now, are not likely to permit its removal without vigorous protest.

Not only is the feeling general that the naval academy is the proper location for as many of the relics of the old navy as can be secured, but the peculiar position of old Tecumseh in the traditions of the academy make its removal almost out of the question.

Brought to Annapolis shortly after the return of the academy from Newport, to which it was transferred during the Civil war, and set up in a prominent place between the old seamen's building and the department of ordnance and gunnery, the midshipmen almost at once raised the statue to the position of an idol, and dubbed it "The God of 25," the figure being that which is necessary to obtain in order to pass an examination at the academy.

A small Norwegian lad presented himself before a Minnesota schoolteacher, who first asked him his name. "Pete Peterson," he replied. "And how old are you?" the teacher asked next. "I do not know how old I have," said the lad. "Well, when were you born?" continued the teacher. "I not born at all; I got stepmother."

## We Have

Carried more goods over the holidays than we care to keep. In order to reduce this large stock we have made reductions that will appeal to any one needing goods in my line. Call and let us show how cheap you can buy a nice Diamond Ring, Gold or Gold-Filled Watch, Cut Glass, Sterling Silver Knives, Forks and Spoons; also, Plated Ware, Clocks, Umbrellas, Brass Goods, Jewelry of any kind

P. J. MURPHY, THE JEWELER AND OPTICIAN.

## WASHINGTON GOSSIP

## Nun Is "Modiste" to Society Belles

WASHINGTON.—Silks and satins of a world renowned atelier are made in turn to pay their tribute to the church by Sister Clara, the "Mlle. Modiste" of the convent.

Day long she sits in St. Rose's Industrial school, where many women of wealth and culture known in official and diplomatic Washington circles come to be fitted with gowns which rival those of a Paquin and which are the product of Sister Clara's creative genius.

No fashionable atelier can boast of a more distinguished patronage than can the little room where Sister Clara meets her clients.

The wife and daughters of President Roosevelt were gowns of her design when they lived in the White House, and the list now includes society dames such as Mrs. Nicholas Longworth, Mrs. Martha Elchborn

Pearsall, Mrs. Townsend and her daughter Mathilde, who is now the wife of Peter Golet Gerry; Mrs. I. Kins and her daughter, Miss Katherine Ikins; Mrs. George E. Howard and Mme. Pederneras, wife of the attaché of the Brazilian embassy. In the past the list included Senora and Senorita Godoy of the Mexican embassy; Mme. Carbo of the Ecuador embassy, Mme. de Blanpre, Mme. de Amarnal of the Brazilian embassy, Mme. Adele Cortez and Mrs. Foraker, wife of Senator Foraker.

Sister Clara was once a leader in the cultured circles of a big eastern city, supposed to be New York. She is the child of wealthy parents, reared in luxury and convent bred. When she was graduated she became one of the best known of the younger set in her home city.

But society life did not charm her, and the years of her convent life reassured themselves and she became a novice. Being a girl of superior tastes, she chose St. Rose's Industrial school as the place for her life work.

Each year Sister Clara goes to New York and often to Paris to keep up with the styles.

## How Two Department Heads Compromised

D. R. WILEY, the pure fooder, and Willis L. Moore, the boss weatherman, are great cronies. They are drawn together by the fact that each is a daily victim of amateur jesters and sidewalk merry-makers who persist in cracking the same old jokes about the weather or things to eat.

Wiley and Moore were talking to a couple of friends the other day and somebody suggested a dinner. Wiley said he would be in for it, and Moore said he would. So it was arranged that the dinner should be held at the Cosmos club the next night.

When the guests arrived, Moore, believing himself the host, indicated the way to a table where the feast he had ordered was to be spread.

"But the dinner's to be served at this table over here," said Wiley, pointing to another end of the dining room.

"Well, who's running this, anyhow?" inquired Moore. "I guess I'm the host."

"I beg your pardon," said Wiley, "but I happen to be the host, and—"

There it was. Each had thought himself the host and ordered an elaborate and highly edible layout of stuff in advance.

Wiley's food scheme included milk-

fed chickens, hatched from a Strictly Fresh egg, and Moore had arranged for a beefsteak the size of a doormat and as thick as a law book. The two hosts stood midway between the tables and argued about the merits of the rival feasts with all the imaginative words picturing of a pair of press agents. After each had failed to convince the other, Wiley suggested a compromise. It was a compromise characteristic of Wiley, who has one of those shaft-driven, internal expanding appetites.

"I'll admit that your table is in the best location," began the doctor, "so we'll move my costly feast over to your table, and we'll eat both dinners!"

And when it was all over, Wiley leaned back and expressed the hope that double dinners would become popular. He said it was the only way to eat.

## Military Guard Urged for White House

THE question of a military guard for the White House is occasioning much discussion, both among people who think soldiers should be detailed there and among others who oppose that plan. Adherents to the plan for a military guard had to

**Could Have Saved Money**  
You can save money by spending it right, as well as by laying it aside.  
For instance there are many people who do not buy the right medicine for their ailments, and pay out many dollars before they learn just what to do.  
Mrs. Alex Dumas of Malone, N. Y., knows this now. She says "A very heavy cold settled on my lungs last winter and for three months I coughed almost constantly. At night I could hardly get any sleep. I tried several medicines but none of them did me any good. Then I thought I would use Vinol and it began to help my cough from almost the first dose.  
"I do not cough at all now, I can sleep well and have gained much strength, all because I took your splendid tonic."  
When you buy Vinol for your cough, or to build you up, you are getting the best remedy that can be had and will not need to experiment with any others. We guarantee Vinol to do you good and will give back your money if you are not well satisfied. J. C. Pacor, Druggist, Maysville.

**A Saving Postel Bank** will be established at the Brooksville Postoffice February 20th.

Mrs. Mary Conroy of near Powersville has been quite sick for some time, suffering with infirmities due to her extreme age, 92, her recovery not being looked for.

## CHINESE FAMINE

### Pitiful Stories of Starvation—Novel Plans for Relief

It will doubtless surprise Americans to learn that in many of the interior cities of China are civic improvement associations whose objects are similar to those of such organizations in this country. The most enlightened and public spirited Chinese are banded together in these associations for the purpose of promoting education, sanitation, and the common good and to suppress graft and other forms of political corruption. All of which sounds familiar to American ears.

For the first time these organizations of the Chinese "best people" are to be actively enlisted in carrying out the famine relief measures planned by the relief committee at Shanghai. This is of especial interest in the United States because the relief funds now being raised by the Red Cross will be distributed through the Shanghai Committee. The famine relief fund will be largely used in employing the famine sufferers to reconstruct their own dykes and roads which have been destroyed by floods. Thus the idle and despairing people will be enabled to earn a living while waiting for another harvest and will at the same time be helping to restore their country to normal conditions. One of the most serious problems in relief operations attending other famines has been the pauperizing effect upon the population of receiving support during prolonged periods of illness. The plan now to be adopted promises to reduce this demoralizing result. Mr. C. D. Jameson, the American Red Cross organizer who has recently traveled extensively through the districts which have suffered much from famine in late years, reports that the people, finding crops usually a failure and relief certain, show a natural inclination to abandon their lands and turn to beggary. This tendency is in hoped now to check by means of a system of relief based upon honest work.

The present unsettled political conditions in China make it impossible for the Chinese Government to contribute liberally to the relief funds. For this reason it becomes more imperative that the United States, always China's friend, shall respond to the need generously. Famine conditions are so desperate that any description of them seems almost incredible. Mr. Jameson writes of prostrated, gaunt, starving people wandering aimlessly along the roads, falling and dying in the mud when they can go no farther. Day after day he passed dead bodies of men, women and children lying where they had fallen. And the famine must continue until summer before new crops can be harvested. Nearly 3,000,000 persons live in these famine districts, which cover thousands of square miles.

The Shanghai Relief Committee has asked the United States to raise a relief fund of a \$1,000,000 and the American Red Cross is endeavoring to do all possible to meet the need. Contributions for this purpose sent to the Red Cross in Washington or to the officers of Red Cross Chapters or State Boards will be cabled to China without unnecessary delay.

**Real Men Wanted**

To "make good," requires a man's unhampered ability. Frequently, headaches and other annoying ills, brought on by the habitual use of coffee and tea, make it quite impossible for a man to think clearly and do his best work.

**POSTUM**

—made of clean, hard wheat—is really a food-drink, and used regularly in place of coffee or tea which contain the drug, **caffeine**, has helped thousands of people in every walk of life, by removing the handicap to natural ability.

The change to Postum for, say, 10 days, may point the way for you.

**"There's a Reason"**

**What One Man Did**  
Augusta Chronicle.  
On Tuesday, Pete Wenz, living on C. L. Hook's farm, delivered his crop of tobacco, amounting to 11,000 pounds, for which he received 10 cents straight. Mr. Wenz grew this tobacco alone, spending only about \$20 for help. Who can beat this record?

**Reports on Pension Bill**  
WASHINGTON, February 14th.—The majority and minority reports on the Smoot General Pension Bill were reprinted today in the Senate.

Senator McCombar, for the majority, reported that the Smoot bill would carry an average annual increase of \$160.50 for each pensioner.

**Sanctified Sinners**  
Augusta Chronicle.  
Rev. J. W. Harris of Springfield, Ohio, a "holiness" preacher, has been engaged in a series of meetings at the Wellsburg school house during the past three weeks, the attendance being good. Rev. Harris and wife, so we are informed, have reached that stage of perfection whereby it is impossible for them to sin, both testifying to this effect during the meeting.

## A GREAT DISCOVERY

### Certain Ingredients That Really Promote Hair Growth When Properly Combined

Reacitin is one of the most effective germ destroyers ever discovered by science, and in connection with Beta-Nap-hol, which is both germicidal and antiseptic, a combination is formed which destroys the germs which rob the hair of its natural nourishment, and also creates a clean, healthy condition of the scalp which prevents the development of new germs.

Pilocarpin, although not a coloring matter or dye, is a well-known ingredient for restoring the hair to its natural color, when the loss of color has been caused by a disease of the scalp.

These ingredients in proper combination, with alcohol added as a stimulant and for its well-defined coloring properties, perfect perhaps the most effective remedy that is known for scalp and hair troubles.

I have a remedy which is chiefly composed of these ingredients, in combination with other extremely valuable medicinal agents. I guarantee it to positively cure dandruff and to grow hair, even though the scalp is bare of hair. If there is any vitality left in the roots, it will positively cure baldness, or I will refund your money. If the scalp has a glazed, shiny appearance, it is an indication that baldness is permanent, but in other instances I believe baldness is curable.

I want every one troubled with scalp disease or loss of hair to try Rexall "93" Hair Tonic. If it does not cure dandruff and grow hair to the satisfaction of the user, I will without question or quibble return every cent paid me for it. I print this guarantee on every bottle. It has effected a positive cure in 95% of cases where put to a practical test.

Rexall "93" Hair Tonic is entirely unlike, and I think, to every particular, better than anything else I know of for the purpose for which it is prescribed. I urge you to try this preparation at my entire risk. Certainly I know of no better guarantee to give you. Remember, you can obtain Rexall Remedies in Maysville only at my store—The Rexall Store. Thos. J. Chenoweth, corner Second and Sutton streets.

## MAIL BAGS OF RULERS

### Pope's the Largest—Kaiser's Next With 7,500 Letters a Day

The mail bag at the Vatican probably contains the largest number of letters that are addressed to any single person or institution. After the Pope, the Kaiser receives the greatest number, fully half being addressed to him personally.

Emperor William never less than 7,500 letters daily, a goodly proportion of which, according to Harper's Weekly, are appeals to right wrongs about which he knows nothing and would be powerless to act if he did. Many are private diplomatic letters.

After him comes the President of the United States, who gets a daily average of 5,000 letters. The mail of the present King of England has dwindled to 2,500 letters, probably a third of the number received by his father. The mail bag of the Czar is smaller still, about 500 persons writing daily to one well known to be hedged in by officialdom.

It is said that the royal palace in Madrid gets 300 letters, addressed for the most part to King Alfonso, but a share falling to the lot of the Queen. The Italian King gets only about 200 letters daily, while the mail bag of the President of France varies greatly.

When the foreign population in Paris is most numerous his mail reaches as high as average as the American President, but in other months the average is comparatively small. It is said that the Emperor of Japan has only recently begun to be troubled in this matter, letters to him being mainly of the nature of appeals to add by his aid to the war in the East.

## HEED THE WARNING

### MANY MAYSVILLE PEOPLE HAVE DONE SO

When the kidneys are sick they give unmistakable warnings that should not be ignored. By examining the urine and treating the kidneys upon the first sign of disorder, many days of suffering may be saved. Sick kidneys expel a dark, ill-smelling urine, full of "brick dust" sediment and painful in passage. Sluggish kidneys often cause a dull pain in the small of the back, headaches, dizzy spells, tired, languid feelings and rheumatic twinges.

Doan's Kidney Pills are for the kidneys only.

Maysville people recommend Doan's Kidney Pills.

Mrs. John E. Burns of Maysville, Ky., says: "I value Doan's Kidney Pills just as highly today as when I gave a statement for publication in their praise some years ago. I was subject to attacks of kidney trouble and at times the pain in my back were so acute that I was confined to my bed for days. The prompt relief I received from Doan's Kidney Pills, procured at J. J. Wood & Son's Drugstore, was very gratifying, and I have had no serious return attack of kidney trouble. On some occasions, I have felt a slight twinge but a few doses of the valuable remedy have never failed to benefit me."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

**PLUMBING** is often looked upon as being merely a source of trouble and annoyance, but the right kind of plumbing is one of the chief sources of home comfort.

We are ready to furnish the right kind of plumbing by installing "Standard" guaranteed fixtures.

AND GAS FITTER.

## Capsidonna Porous Plaster

Will give relief when properly applied. For rheumatism, neuralgia, sciatica, pleurisy and all aches, pains, sprains, stiffness, lameness, backache, spinal complaints, kidney diseases and nerve and muscular disorders should be placed immediately over the affected part and smoothed with the hand.

For all lung and chest troubles, including bronchitis, asthma, pneumonia or inflammation of the lungs and consumption apply the plaster over the lungs and also one between the shoulders.

In dyspepsia, indigestion and sea sickness great relief will be afforded by applying the plaster over the pit of the stomach.

PUBLIC LEADER  
MAYSVILLE, KY.

MAYSVILLE LOOSE LEAF TOBACCO  
MARKET

The Farmers' and Planters' warehouse had  
the best sales of the season yesterday, sell-  
ing 146,195 pounds at exceptionally fine  
prices. Prices above \$20 were common. Two  
bushels of fancy tobacco sold for \$44 and \$51  
per hundred.

The presence of several of the big lights of  
the manufacturers may have been the cause  
of the advance in prices.

Good crop averages at the Farmers' and  
Planters' houses were:

E. Willett, Orangeburg, 760 pounds at  
\$21.13 per hundred.

E. L. Tilton, Mt. Olivet, 530 pounds at  
\$21.29 per hundred.

Ira Willett, Orangeburg, 760 pounds at  
\$18.66 per hundred.

Rhodes & Paris, Elizaville, 3,785 pounds at  
\$18.85 per hundred.

The Independent house held a block sale,  
which will be closed today.

WEDDED SIXTY YEARS

Colonel C. B. Childs, Builder of the  
& O., and His Remarkable  
Career

Colonel C. B. Childs, chief engineer in the  
construction of the C. & O. down the Ohio and  
well known to many of our people, celebrated  
his 60th wedding day yesterday as told by  
Thursday's Commercial Tribune, which says:

"Mr. and Mrs. Charles B. Childs will today  
celebrate their 60th wedding anniversary.  
Mr. Childs' recent serious illness prevents  
suitable celebration of this unusual occasion  
by their many friends in Cincinnati and  
vicinity, whose kindly regards and congratula-  
tions are extended.

"For over forty years Mr. Childs has been a  
resident of this county. Born eighty-eight  
years ago in Vermont, he early entered into  
the railway business, which he followed as  
civil engineer and contractor until his retire-  
ment in the early sixties. Many of the im-  
portant trunk lines in the Central West were  
constructed under his supervision. The last  
work, rounding out his career, being the con-  
struction of the Chesapeake & Ohio Railway  
from Huntington to Covington.

"Mr. Childs enlisted in 1861 for the war of  
the rebellion and served as Captain of Com-  
pany B, Eighth Vermont Volunteer Infantry, a  
part of the army of the gulf, under command  
of General Benjamin F. Butler, who appointed  
Captain Childs provost marshal of New  
Orleans.

Captain Childs is an honored member of  
the Ohio Commandery of the Military Order of  
the Loyal Legion and is the oldest member on  
the oldest member of  
Judge of Masons.

Childs are beloved members  
Church. They reside  
at Worthington avenue, Lockland, O.

Four children were given to them, three of  
whom are living, who with their five grand-  
children and two great grandchildren, will  
with them mark the passing of this eventful  
day.

A photograph shown in this issue was  
taken on the occasion of their fiftieth wed-  
ding anniversary in 1902. Mrs. Childs is  
wearing the same dress she wore when  
married and her hair is dressed in the style of  
fifty years ago."

## IF YOU HAVE A SICKLY YOUNGSTER TRY THIS FREE

The family with young children  
that is without sickness in the house  
now and then is rare, and so it is im-  
portant that the head of the house  
should know what to do in the little  
emergencies that arise. A child with a  
serious ailment needs a doctor, it is  
true, but in the majority of instances,  
as any doctor knows, the child suffers  
from some intestinal trouble, usually  
constipation.

There is no sense in giving it a pill  
or a remedy containing an opiate, nor  
is flushing of the bowels to be always  
recommended. Rather give it a small  
dose of a mild, gentle laxative tonic  
like Dr. Caldwell's Syrup Pepsin,  
which, by cleaning out the bowels and

strengthening the little stomach mus-  
cles, will immediately correct the trou-  
ble.

This is not alone our opinion but  
that of Mrs. N. H. Mead of Freeport,  
Kan., whose granddaughter has been  
taking it successfully and of Mrs. J.  
R. Whiting of Lena, Wis., who gives  
it to her children and takes it herself.  
It is sold in fifty cent and one dollar  
bottles at every drug store, but if you  
want to test it in your family before  
you buy it send your address to Dr.  
Caldwell and he will forward a trial  
bottle free of charge.  
Address him Dr. W. B. Caldwell,  
641 Caldwell building, Monticello,  
Ill.

## Our Colored Citizens.

Mrs. Helen Davis of the county is visiting  
her aunt, Mrs. Richard Barn of West Fourth  
street.

Mrs. Lizzie Mandy, Mrs. Robert Thompson  
and daughter, Miss Louie, left yesterday mor-  
ning for Dayton, Ohio, to be present at the fi-  
fteenth wedding anniversary of Mr. and Mrs.  
John Walker.

Edward Francis Lee, infant son of Mr. and  
Mrs. John Lee of Piqua, Ohio, died Tuesday  
afternoon of pneumonia. Mrs. Lee was for-  
merly Miss Emma Lee Taylor of this city,  
adopted daughter of Mr. and Mrs. James H.  
Taylor of East Fourth street.

## China Has New President

The National Assembly unani-  
mously elected Yuan Shi Kai Presi-  
dent of the Republic and then decided  
that the provisional capital shall be  
Nanking.

## SIMPLICITY OF HAIR DRESS- ING NOW FASHIONABLE

Women Favor Parted Locks, Puffs,  
Pompadoors. Coronet  
Braids Going  
Out

The present fashion of wearing the hair  
softly parted, without puffs and braids, de-  
mands a naturally fine head of hair, and  
women with thin, faded locks are at their  
wits' end to know how to make their hair look  
well. The first step toward this end is to  
keep hair and scalp in a healthy condition by  
the systematic use of a stimulating tonic.

HAY'S HAIR HEALTH contains all the  
health-giving ingredients needed by the  
starved hair roots. It destroys dandruff  
germs and encourages rapid growth of strong,  
new hair. Those hopelessly dry, faded look-  
ing locks grow soft, lustrous and youthful  
and the whole appearance is improved. You  
can get it at any druggist's for 50c, or \$1 per  
bottle or from the Philo Hay Spec. Co., New-  
ark, N. J.

Colonel C. B. Childs, chief engineer in the

Mr. Childs' recent serious illness prevents  
suitable celebration of this unusual occasion  
by their many friends in Cincinnati and  
vicinity, whose kindly regards and congratula-  
tions are extended.

"For over forty years Mr. Childs has been a  
resident of this county. Born eighty-eight  
years ago in Vermont, he early entered into  
the railway business, which he followed as  
civil engineer and contractor until his retire-  
ment in the early sixties. Many of the im-  
portant trunk lines in the Central West were  
constructed under his supervision. The last  
work, rounding out his career, being the con-  
struction of the Chesapeake & Ohio Railway  
from Huntington to Covington.

"Mr. Childs enlisted in 1861 for the war of  
the rebellion and served as Captain of Com-  
pany B, Eighth Vermont Volunteer Infantry, a  
part of the army of the gulf, under command  
of General Benjamin F. Butler, who appointed  
Captain Childs provost marshal of New  
Orleans.

Captain Childs is an honored member of  
the Ohio Commandery of the Military Order of  
the Loyal Legion and is the oldest member on  
the oldest member of  
Judge of Masons.

Childs are beloved members  
Church. They reside  
at Worthington avenue, Lockland, O.

Four children were given to them, three of  
whom are living, who with their five grand-  
children and two great grandchildren, will  
with them mark the passing of this eventful  
day.

A photograph shown in this issue was  
taken on the occasion of their fiftieth wed-  
ding anniversary in 1902. Mrs. Childs is  
wearing the same dress she wore when  
married and her hair is dressed in the style of  
fifty years ago."

Colonel C. B. Childs, chief engineer in the  
construction of the C. & O. down the Ohio and  
well known to many of our people, celebrated  
his 60th wedding day yesterday as told by  
Thursday's Commercial Tribune, which says:

"Mr. and Mrs. Charles B. Childs will today  
celebrate their 60th wedding anniversary.  
Mr. Childs' recent serious illness prevents  
suitable celebration of this unusual occasion  
by their many friends in Cincinnati and  
vicinity, whose kindly regards and congratula-  
tions are extended.
